

Recreation

Action Step

Create a space for outdoor public assembly that can be used for recreation, civic activity, and public art exhibitions.

This is a mid- to long-term action step.

Immediate opportunity

The Department of Transportation is now accepting proposals for its Public Plaza Initiative. Entities who have demonstrated that they have consulted with the local community receive additional points on their application.

Ways to measure progress toward this goal

Track how much open space has been added to the neighborhood (3.6 percent of land area in Community District 14 as of 2006).
